

Technical Information

Adhesin TS 0190

Type of adhesive	aqueous adhesive on cellulose basis	
Field of application	tail tie of toilet- and tissue paper rolls	
Product specification	Test Method	
Viscosity	6.000 \pm 2.000 mPa.s	Brookfield 23 °C ISO 2555
pH-value	7,3 \pm 1,0	ISO 976
Colour	white - transparent	
Properties	Adhesin TS 0190 is an adhesive for tail tie of toilet- and tissue paper rolls. The adhesive shows a high wet tack, provides a white film and a low final bond strength. The adhesive corresponds to the recommendations of BgVV XXXVI.	
Processing Application	by means of nozzle	
Dilution	The product is ready-for-use. According to the paper thickness the product can be diluted up to 50 % with water.	
Cleaning	Uncured and cured adhesive residues can easily be removed with water. Wetting agents accelerate the cleaning process.	
Disposal	see Safety Data Sheet	
Protective Measures	see Safety Data Sheet	
Storage Conditions/ Shelf Life	In closed original packaging 6 months from date of production. Optimum storage temperature: 15 - 25 °C, protect from frost. Close containers thoroughly after use.	

The information provided herein, especially recommendations for the usage and the application of our products, is based upon our knowledge and experience. Due to different materials used as well as to varying working conditions beyond our control we strictly recommend to carry out intensive trials to test the suitability of our products with regard to the required processes and applications. We do not accept any liability with regard to the above information or with regard to any verbal recommendation, except for cases where we are liable of gross negligence or false intention.
