

# Technical Information

## Purmelt Cleaner 2

**Type of adhesive** Purmelt Cleaner 2 is a cleaner hotmelt adhesive for polyurethane hotmelt adhesives application

**Field of application** Purmelt Cleaner 2 is used for cleaning of application equipments, melting systems and such like which are used for polyurethane hotmelt adhesives applications.  
Purmelt Cleaner 2 convert the reactive components of the poly-urethane hotmelt adhesive, to rule out further crosslinking processes.

### Product specification

#### Density

$0,95 \pm 0,05 \text{ g/cm}^3$

### Test Method

#### Softening point

$72 \pm 4 \text{ }^\circ\text{C}$

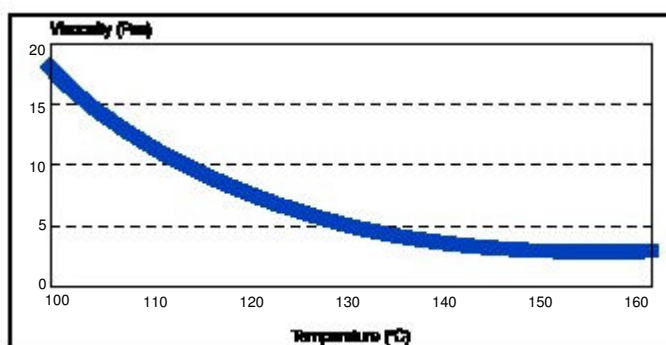

R&B

#### Viscosity

$6.500 \pm 500 \text{ mPa.s at } 130^\circ\text{C}$

Brookfield

### Processing advice

At application processes with melt pot granulated Purmelt Cleaner 2 is used. At working with drum melt units Purmelt Cleaner 2 is available in equivalent hoppers or drums. Purmelt Cleaner 2 is bluish coloured to facilitate the cleaning process. Commonly Purmelt Cleaner 2 is used with the same application temperature as the polyurethane hotmelt which was applied during the working process (approx. 90 - 140 °C).

### Storage

At room temperature in closed rooms at least storable for 12 months.

### Protective Measures

see Safety Data Sheet

The information provided herein, especially recommendations for the usage and the application of our products, is based upon our knowledge and experience. Due to different materials used as well as to varying working conditions beyond our control we strictly recommend to carry out intensive trials to test the suitability of our products with regard to the required processes and applications. We do not accept any liability with regard to the above information or with regard to any verbal recommendation, except for cases where we are liable of gross negligence or false intention.
