

Technical Information

PEKAL 47- 600

Description Casein based adhesive

Field of use Labelling
Glass bottles and pots labelling with paper labels.
Product specific for tinfoil

Product specification

Method

pH7,1 \pm 0.3
Viscosity 20°C 100.000 \pm 10.000 mPa.s
(Brookfield 7 RV 20 rpm at 25° C)

ISO 976
ISO 2555

Product characteristics

Pekal 47-600 is characterised by a strong initial tack for very high speed labeling machines

Application

Ready to use without dilution.
On all types of labelling machines, even on high-performance ones, with or without pump system.

Temperature 20 – 28° C

Cleaning Parts of the adhesive can be removed easily with hot water

Storage 6 months at room temperature in tightly closed pails.

Zingonia, July 2006
