

Henkel

The Complete Solution to End-of-Line Packaging

Your Benefits

- Increase production uptime
- Cut maintenance costs
- Reduce energy costs
- Maximise operator safety
- Assure quality of bonded cases and cartons

Nozzles stay clean (right) and dispense adhesive smoothly with Easy-Pac.

Henkel

Easy-Pac™

Easy-Pac™ is the complete package sealing solution that eliminates char to keep your lines up and running. This unique system provides a full case and carton sealing functionality at the lowest application temperature on the market.

Increased uptime / reduced downtime

- Reliable, uninterrupted bonding
- No clogged nozzles and no line stoppages due to adhesive char
- On-time customer shipments

Maximum equipment life

- Lowest temperature, 90 / 100 °C, applied hotmelt maximises equipment life
- Guarantee on equipment and all spare parts
- No capital expense

Hassle-free sealing

- Integrated autofill system - no manual filling required
- Contamination-free filling and storage
- Minimal attention from operators for the adhesive and dispensing system
- Operators can focus on value-added tasks

Maximum operator safety

- 90 / 100 °C hotmelt is the lowest application temperature hotmelt in the industry
- Minimal exposure to hot application equipment reduces the hazard of burns

Reliable case and carton sealing with superior bond integrity

- Consistency of adhesive application and temperature over time assuring quality of bonding
- Fast setting speed and improved fibre tear
